## NOTE.

**M**ORE than ten years ago Sir Frederick Wedmore wrote the introduction to the second edition of his catalogue of Whistler Etchings that these prints were so scattered and so many of them were and always must be so very rare that he would have been unable to compile his catalogue without the help of "several diligent collectors" on both sides of the water. Bourcard repeats this statement in 1903, and the compiler of each of the catalogues printed since Wedmore's has had much the same thing to say in regard to the difficulty of forming a collection of the etchings and drypoints of an artist who ranks as the greatest etcher of the Nineteenth Century.

It is therefore an event of more than usual interest when one of these great Whistler Collections comes to be dispersed. That of Mr. Judson S. Dutcher, described in the following catalogue, has long been known as one containing many prints of the greatest rarity. The rarest of Mr. Dutcher's prints will be exhibited with the reproductions from that catalogue, thus forming an intelligent basis for comparison. Among them will be found two undescribed states of Price's Candle Works; a superb impression of the Second State of "The Doorway" among ten out of the twelve composing The Venice Set; the French Set complete, including two brilliant impressions of "The

Kitchen ”; and a trial proof of “The Greenwich Pensioner,” with Whistler’s annotations.

Among the prints which make the collection notable are the only known copy of the first state of Zorn’s “Omnibus,” and the equally rare “Cigarette Girl”; the wonderful detail of “The Waltz”; the “Y, Amsterdam,” characterized by Cameron as one of only two proofs; his “St. Marks No. 2”; the exquisite delicacy of the work on Rajon’s “Suzanna Rose”; a trial proof of Haden’s “Mytton Hall”; a proof of Meryon’s “Pont au Change,” with the imaginative influence of the balloon “Speranza.” There are also four drawings in wash and crayon by Edwin A. Abbey, and one in pen-and-ink by Maxfield Parrish, executed with the care and attention to detail for which he is known.

UNDESCRIBED TRIAL PROOF. Before the delicate horizontal dry-point lines across the top of the plate and the heavy work on the right arm near the shoulder; also, before the removal of various lines at the left of the figure, especially the double outline of the right arm. There were other changes throughout the plate, which seems to have been freely burnished down later.

Proof signed by Whistler with his pencilled  and also with the title "Greenwich Pensioner" written by him. The double signature (in pencil) on this print is a very unusual feature.

## BUSINESS IN MADISON AVENUE

THE business transformation of Madison Avenue just north of the restricted Murray Hill zone at Thirty-eighth Street has made great strides this year, and it seems tolerably safe to predict that within a short time the four blocks from the north side of Thirty-eighth Street to Forty-second Street will be devoted to commercial uses.

The leasing of the magnificent home belonging to Mrs. Clarence M. Hyde at the northwest corner of the avenue and Fortieth Street to THE ANDERSON AUCTION COMPANY for a term of twenty-one years at an aggregate rental of \$500,000 is perhaps the greatest blow to the private-house stability of this section of Madison Avenue that has thus far occurred. To be sure, the changes about to be made in the Hyde House are of a high-class character, not such as in themselves would mar the residential excellence of the avenue. It is, however, an invasion of business, and several other houses in the vicinity are being altered for commercial uses and apartments.

The officers of THE ANDERSON AUCTION COMPANY, in selecting this corner for their book and art auction business, were influenced by the fact that their new home is practically in the uptown art centre. Extensive changes are now being made, but the house will not be opened for the auction business until about January 1. The present quarters at 12 East Forty-sixth Street will be retained until that time. The company moved to the latter house from Twenty-ninth Street two years ago, and in that time has outgrown its first uptown home.

Adjoining the Hyde residence on the Fortieth Street side was a vacant lot, upon which the lessees are building an extension. Over 40,000 square feet will be available for exhibition and sales purposes. A large room for the sale of paintings and other works of art will be on the top floor and the book-auction rooms will be on a lower story. The Hyde house with the lot adjoining occupies a corner 51.9 feet on Madison Avenue and 125 feet on 40th St. (with a rear extension of the 40th St. lot 25x40 feet).
